Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- There are no significant Watches or Warnings in effect at this time

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

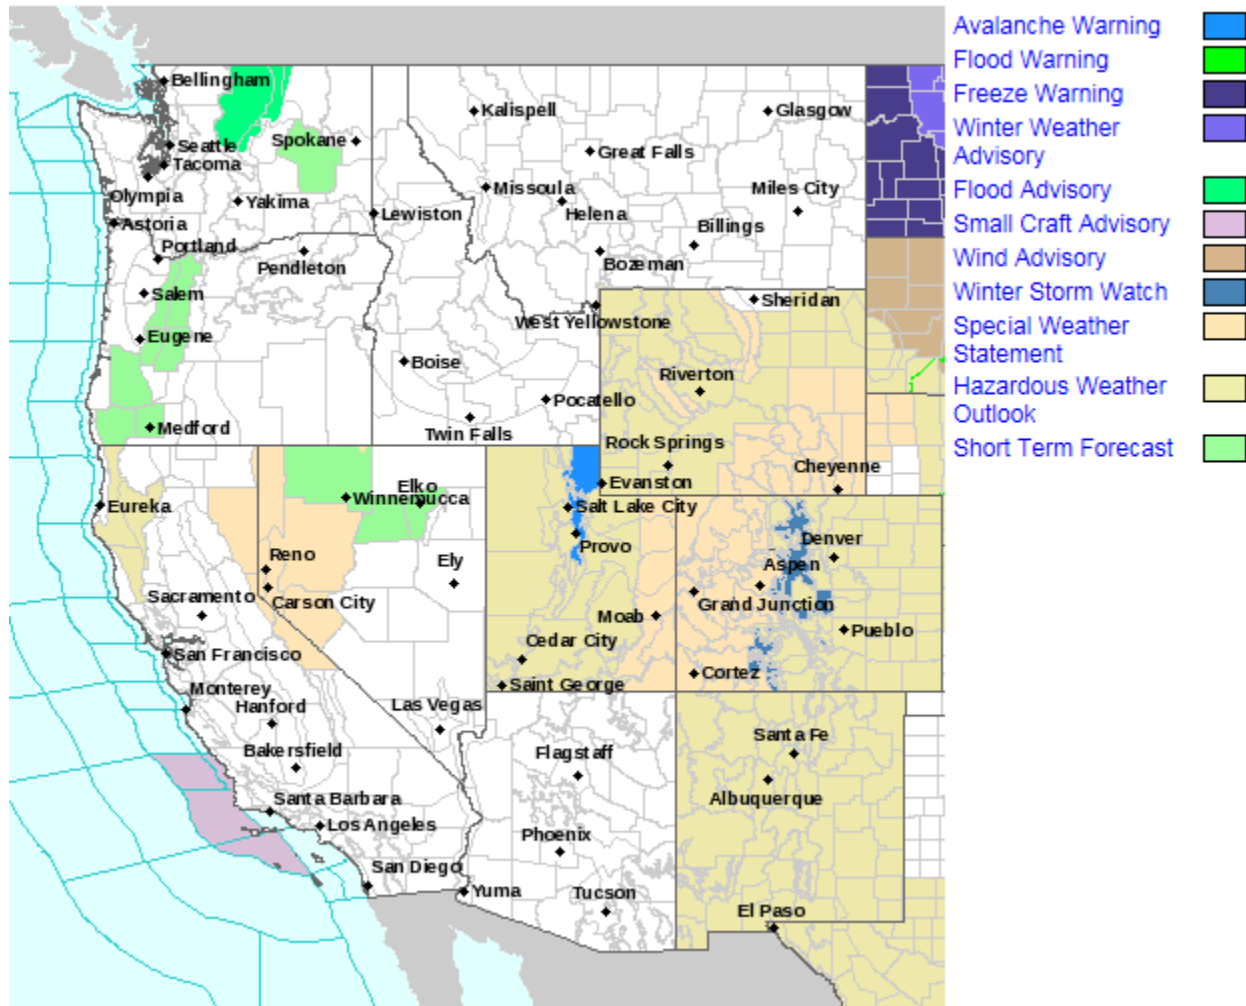

Northern Region

A large scale low pressure trough will remain over the Northern Region and the West Coast for the next week. Smaller scale weather systems will occasionally pass over the Northern Region and produce wet unsettled weather. The next low within this pattern will produce showers and thunderstorms primarily over the higher terrain today and Monday, with less of a chance of rain at lower elevations. Snow levels will be around 6,000 feet. The Northern Region will be between systems Tuesday and Wednesday, but the air mass in place will still be moist and unstable enough for a daily round of afternoon showers and thunderstorms in the mountains. Another low similar to the one expected today and Monday will move through Thursday and Friday with similar conditions. Current forecast models are showing activity ending in eastern areas Saturday and a drier, warmer day next Sunday as a high pressure ridge briefly passes over. Rainfall totals over the seven day period will range from 0.10-0.25 inches in southern/lower elevation areas and 1-2 inches in the mountains

Southern Region

A couple of weak low pressure areas will move inland across Central California from the Gulf of Alaska bringing scattered showers and isolated afternoon thunderstorms to the Sierra through the end of this week. These low pressure areas will also cause temperatures to remain well below normal through the end of this week, with 50s to low 60s in the mountains, and mid-60s to mid-70s in the valleys. Minimum humidity will remain above 30% away from the deserts through the end of this week. A normal sea breeze will push inland each afternoon through the end of this week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.
